Lauren B. Angelo : APha's Immunization Handbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised APha's Immunization Handbook:

In all 50 states in the U.S., pharmacists can now play an active role in combating vaccine-preventable diseases.

Opportunities for pharmacists to provide immunizations are on the rise. Many schools, companies, and organizations now offer pharmacists immunization training and education. Pharmacists and student pharmacists are strongly encouraged to participate in immunization-related activities. APhA's Immunization Handbook, 2nd Edition has been thoroughly revised and updated. Written in a concise and quick look-up format, this essential resource provides numerous guidelines, tips, and resources for building and sustaining a successful immunization practice. Key Features: Up to date CDC Immunization Schedules Revised vaccine billing information, codes, and resources Updated vaccine product information Updated vaccine safety information Frequently asked questions

This second edition of the APhA Immunization Handbook is compressive and includes nearly everything a new and current immunizing pharmacist would like to know regarding the provision of immunizations within their practice. -- Veronica T. Bandy, PharmD, MS Thomas J. Long School of Pharmacy and Health Sciences, University of the Pacific, Stockton, CA American Journal of Pharmaceutical Education 2012; 76 (9) Article 184 This guide provides all the material necessary for pharmacists to set up, conduct, and monitor immunizations in their pharmacies. Immunization workflow charts, marketing strategies, and vaccine handling and storage practices are well described. --R.G. McGee Jr. formerly, Walters State Community College CHOICE, October 2010; 48 (2) This updated reference guide is a very convenient handbook that achieves its intended purposes and provides well-organized, concisely presented information on developing and implementing pharmacy-based immunization services. Pharmacy practitioners and pharmacy leadership planning, initiating, or maintaining immunization services will find this text especially useful. -- Bernard R. Lee PharmD, BCPS and Ebony J. Ayres PharmD Mayo Eugenio Litta Children's Hospital The Annals of Pharmacotherapy, September 2012 This guide provides all the material necessary for pharmacists to set up, conduct, and monitor immunizations in their pharmacies.
