**Ken Ashwell : Barron's Anatomy Flash Cards** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Barron's Anatomy Flash Cards:

3 of 3 people found the following review helpful. I love how colorful and large the photos are By Dorise I love how colorful and large the photos are. One the back is the answers and some detailed explanation. If you are a visual learner then these flashcards will be ideal. 1 of 1 people found the following review helpful. Five Stars By Joe Sos Well designed and very informative! Thanks JS 1 of 1 people found the following review helpful. Five Stars By john Good stuff for my daughter taking the course!

This attractive, newly re-designed set of Barron's Anatomy Flash Cards makes an ideal study aid for medical school students, nursing students, and health care trainees. A total of 300 cards show muscles, bones, and organs, and are color coded according to their general function in the human body. New cards featured in this set include: Layers of

skin in Overview Microscopic development of the brain Immune system cells Microscopic structure of vein and artery  
Microscopic structure of the large intestine and stomach wall Cross-section of spleen Nervous tissue Much more  
An added bonus to this updated edition is Internet access to electronic color images of each flash card. Students can log on to test themselves on every detail contained on the cards, and even create playlists of particular systems or areas where they require further study. Includes a ring that can be used to change cards as needed for studies on-the-go.

About the Author Professor Ken Ashwell, BMedSc, MBBS, PhD is Head of Anatomy Teaching at the School of Medical Sciences at the University of New South Wales, Sydney, Australia. Professor Ashwell acted as Chief Consultant for The Students Anatomy of Exercise Manual and The Student's Anatomy of Stretching Manual as well as the best-selling Anatomica.
