**Monica McGoldrick, Randy Gerson : Genograms in Family Assessment** before purchasing it in order to gage whether or not it would be worth my time, and all praised Genograms in Family Assessment:

0 of 0 people found the following review helpful. Five Stars By Merry Really useful for family therapy or individual therapy  
0 of 0 people found the following review helpful. Five Stars By Kris SA Although the text is from 1985, all applications and design features are still relevant for today's studies.  
0 of 0 people found the following review helpful. Excellent Resource By patricia L pearce Informative, providing interactive information viable for use with clients. Clear, concise diagrams and wording presnted in a user friendly manner

Widely used by both family therapists and family physicians, the genogram is a graphic way of organizing the mass of information gathered during a family assessment and finding patterns in the family system. Both entertaining and

instructive, this book is the ideal way to introduce all those involved in family treatment to this essential assessment tool.
