Barry Barnes, John Dupr : Genomes and What to Make of Them before purchasing it in order to gage whether or not it would be worth my time, and all praised Genomes and What to Make of Them:

The announcement in 2003 that the Human Genome Project had completed its map of the entire human genome was heralded as a stunning scientific breakthrough: our first full picture of the basic building blocks of human life. Since

then, boasts about the benefits and warnings of the dangers of genomics have remained front-page news, with everyone agreeing that genomics has the potential to radically alter life as we know it.
