Right off the bat it tells girls if they have feelings for another girl they may be gay!! Really? That is so confusing to a child who just loves her best friend (as a friend!)0 of 0 people found the following review helpful. Excellent ReadBy PoochieExcellent book - provides a lot of information to help young girls

understand their next stage of their young adult life.0 of 0 people found the following review helpful. SAN ANTONIO DAD LOVES ITBy Anthony Navarrogreat for my daughter! She's growing up So Fast... ;/ feels like i was carrying her home just yesterday.... love my baby.

The essential girl guide to growing up! Girls Only! focuses on the practicalities, social and personal implications of starting your period, and the physical and emotional developments in puberty. It tells you what happens and when, what you need to know and how to prepare. It answers all the questions girls are dying to ask, but daren't, in a clear, friendly way, using real-life examples. It's the perfect first book about periods for girls from primary school age and upwards, with a reassuring tone and fun, quirky illustrations.The perfect first book about periods for girls of primary school age, information at the right level.
