**Dr Evelyn J Biluk : Study Guide for Human Anatomy and Physiology: Female Reproductive System, Embryology, Pregnancy and Labor** before purchasing it in order to gage whether or not it would be worth my time, and all praised Study Guide for Human Anatomy and Physiology: Female Reproductive System, Embryology, Pregnancy and Labor:

This is a collection of multiple choice and true/false questions on the female reproductive system, embryology,

pregnancy and labor. Topics covered include female anatomy, female reproductive cycle, birth control methods, fertilization, first week of development, second week of development, third week of development, fourth week of development, fifth through eighth weeks of development, fetal period, hormones of pregnancy, maternal changes during pregnancy, and labor. These questions are suitable for students enrolled in Human Anatomy and Physiology II or Advanced Anatomy and Physiology.
