I wanted to read and learn some techniques and thought this book would help. Yes, there are Some great ideas in here (like getting the kids to do their name cards but draw something on there that they love/hobby etc to get to know a bit about them and help strike up a conversation!)

from an experienced sub teacher. Other great ideas I've liked is about having a box of tricks such as a book to read, band aids, tissues and spare paper as all of these have come in handy in my first month of subbing! I also like reading other subs' experiences and questions. However, the reason why this book loses two stars is that it doesn't address the real main issue of behaviour and discipline that I've found to be THE most challenging aspect of subbing. This is where you need to know the school policies as well as have your own methods of discipline plus watch how other experienced teachers and subs do it. Ultimately it's a real challenge to get the kids to always adhere as they will always test the boundaries. It's a good introductory guide
